A large red and black geometric graphic is on the right side of the image.

Facilities Planning Process

Facilities Assessment:

Objectively Evaluate your current Facilities

- ▶ Does your current facility meet your unique programmatic requirements?
 - ▶ Are there space and/or storage issues?
 - ▶ Is the building operationally and energy efficient?
 - ▶ Are there code or other hazardous material issues?
- ▶ We will objectively evaluate your facility to help educate you and the community about the state of your facilities and help make recommendations
- ▶ We gather information from the school board members, admin. Staff, maintenance personnel and community members.

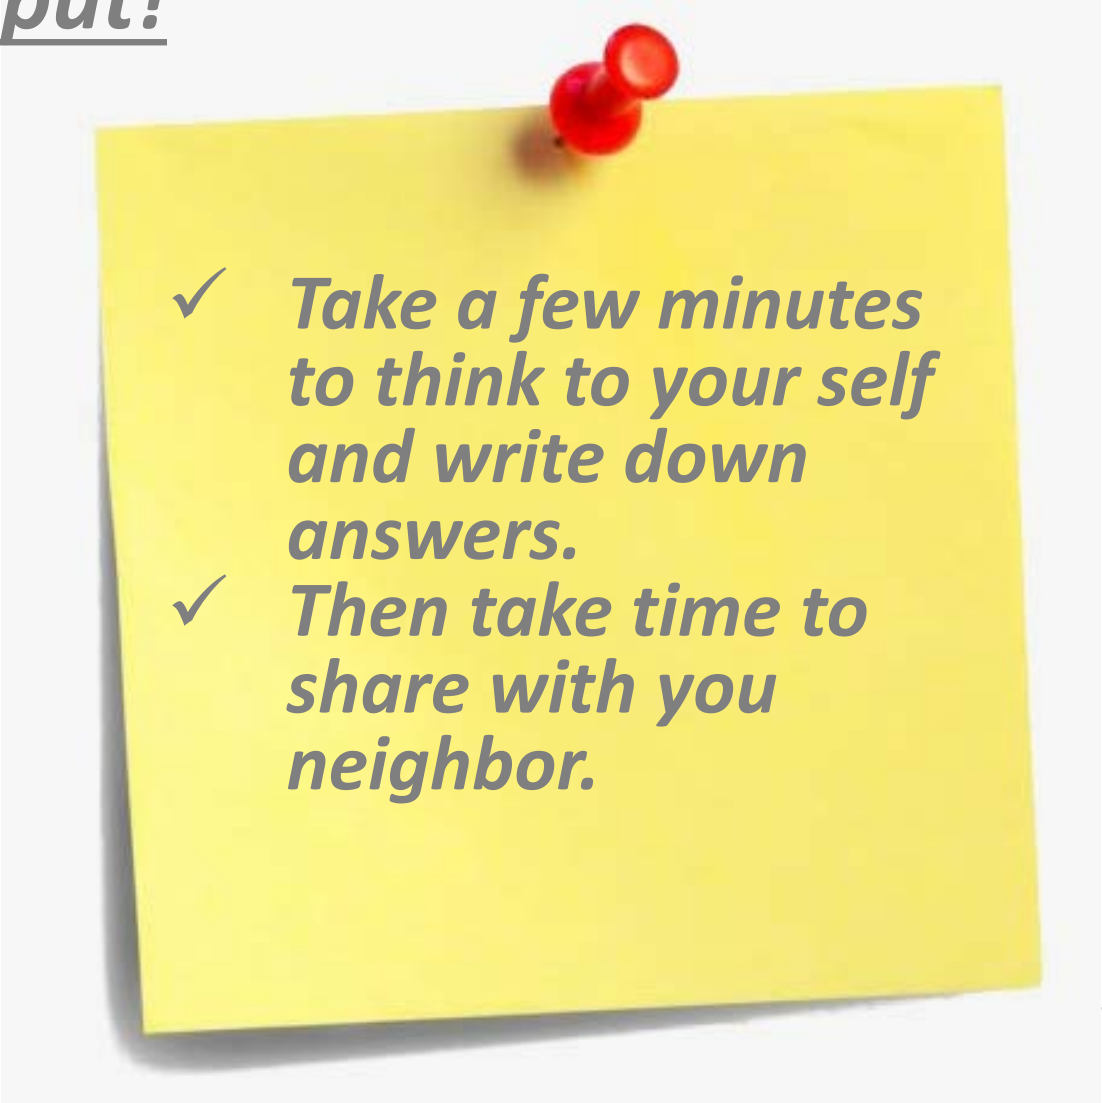

How can YOU help and give input!

- ▶ Attend in person community workshops (9/14 and 9/28)
- ▶ Can't attend a meeting or know someone who can't
 - ▶ Fill out surveys to be sent by email after each meeting to provide feedback
 - ▶ Email the address listed on the post card and district website with additional feedback
 - ▶ Visit the districts Facebook page for updates
 - ▶ ALL information will be posted on the districts website as well to be shared or reviewed.

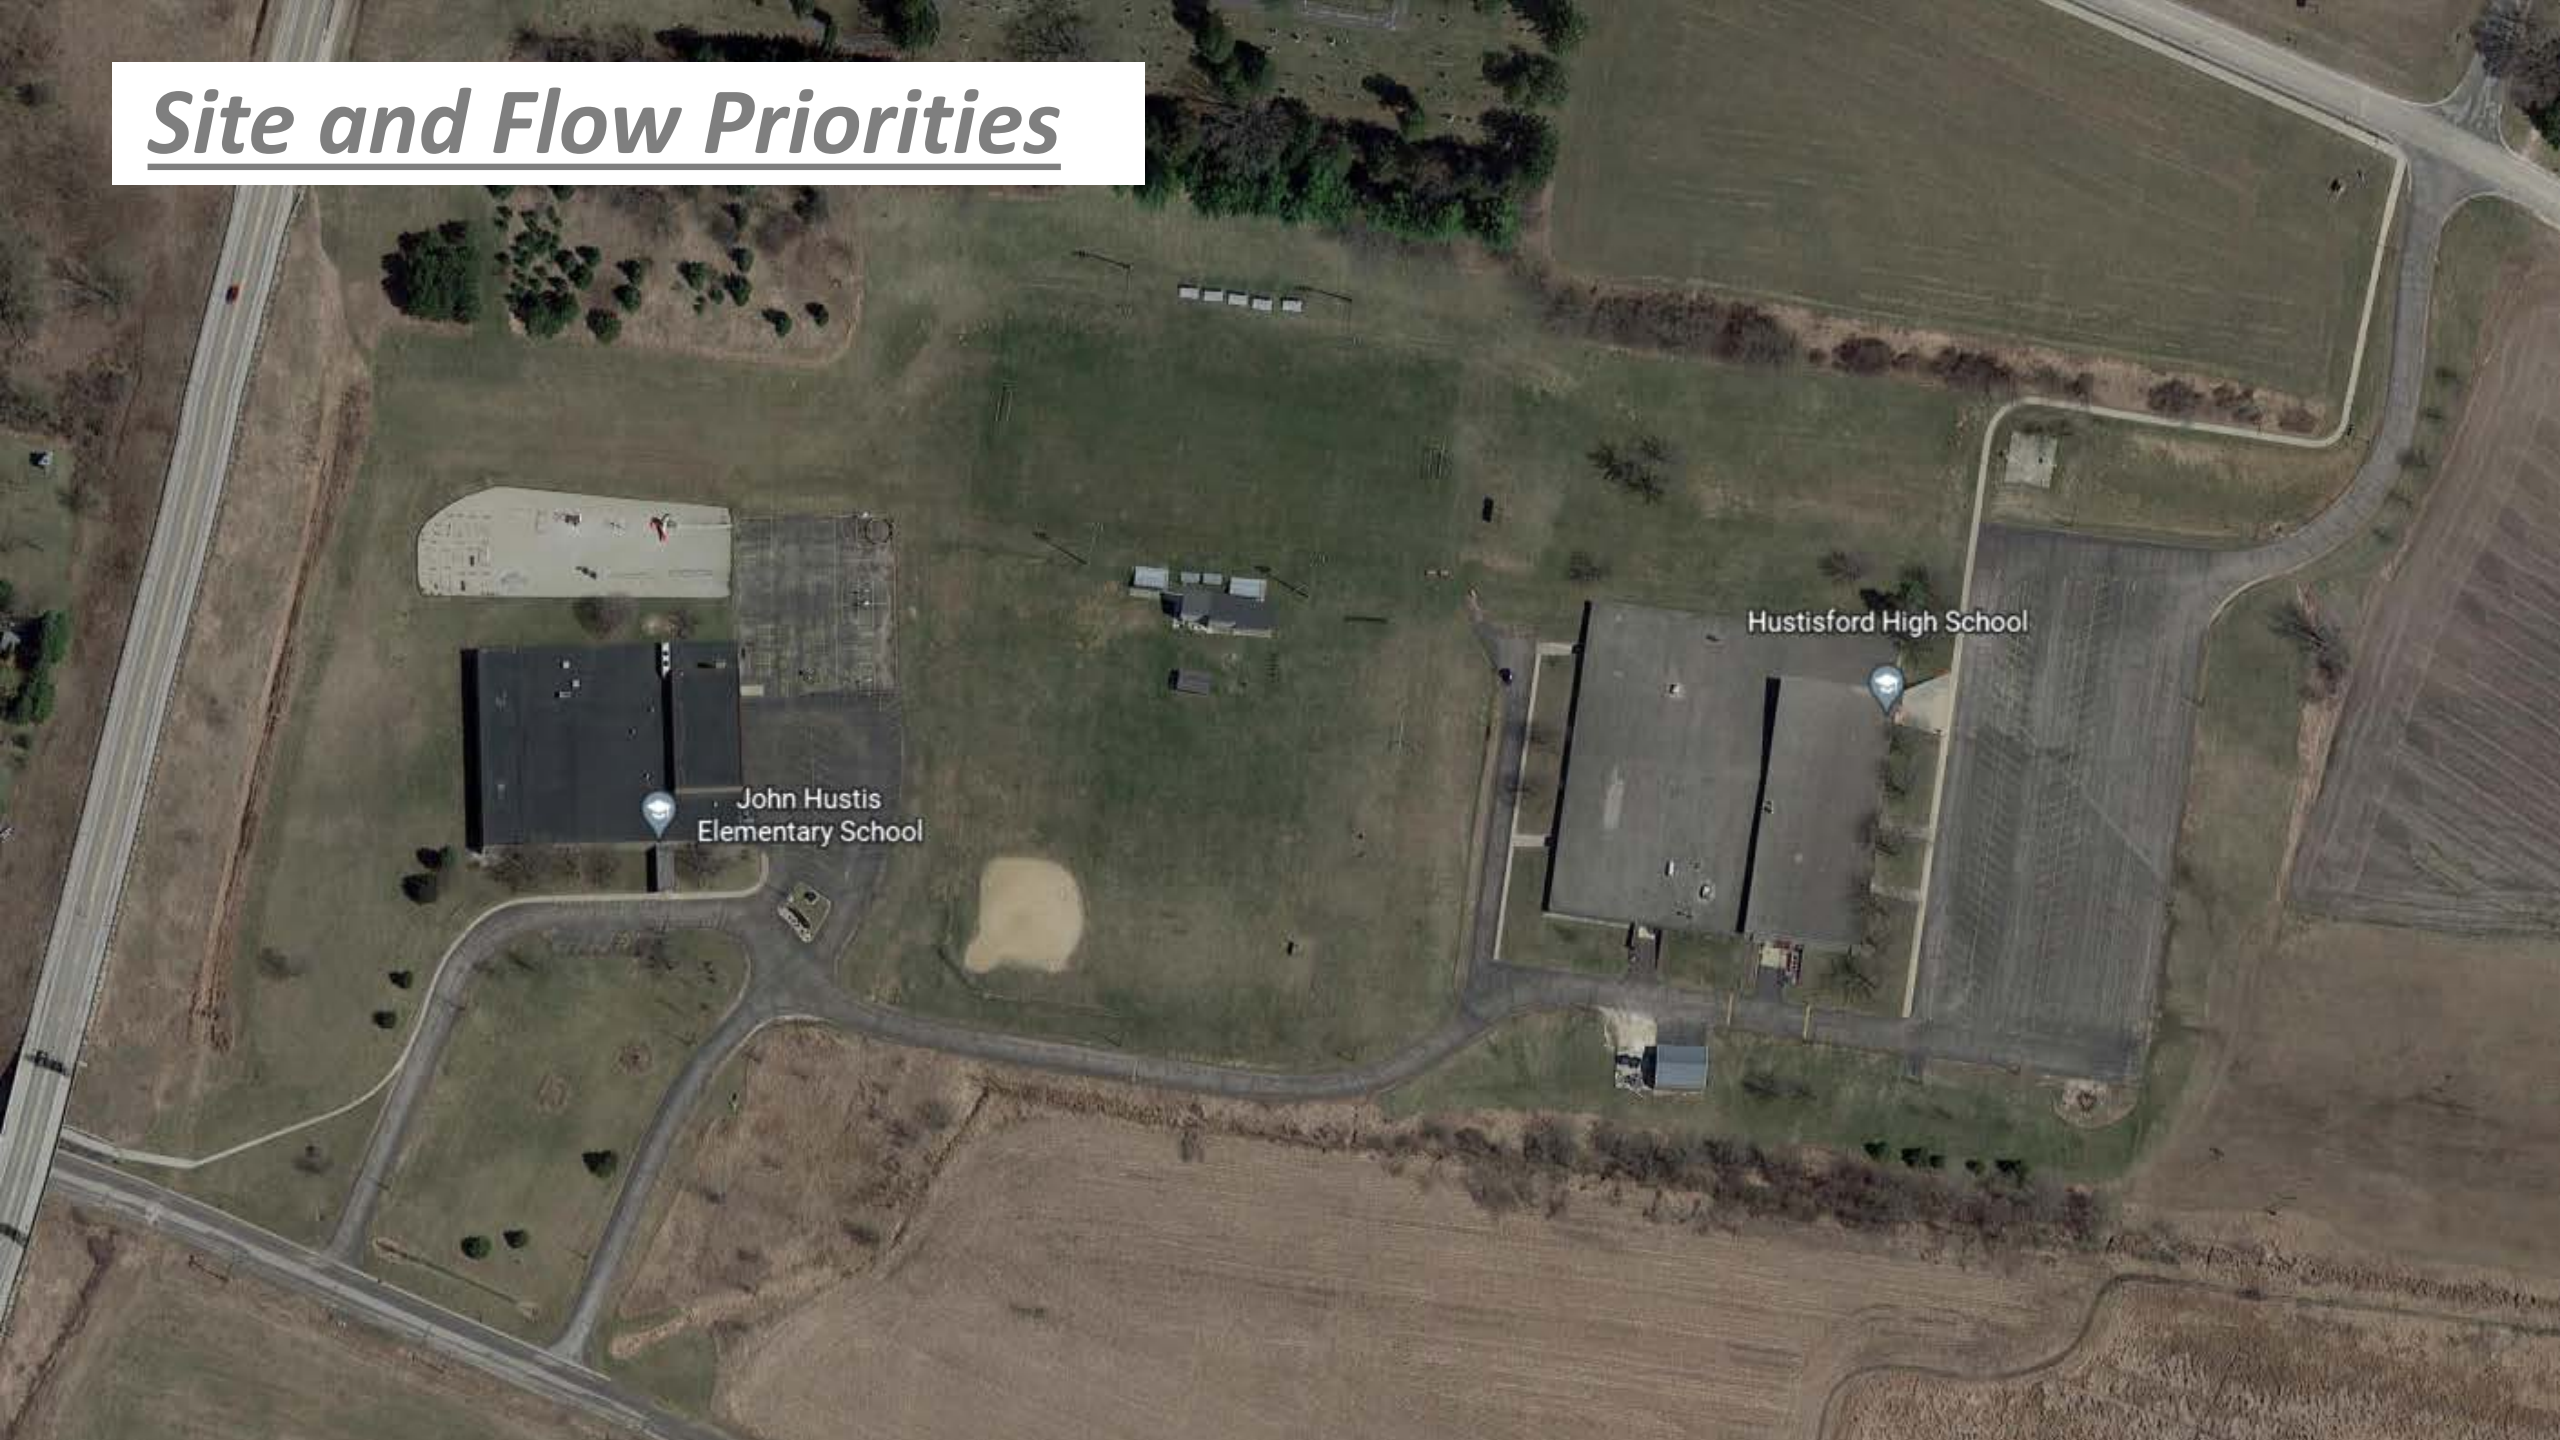

Tell your neighbor, help spread the word

We need your input!

- ▶ What do you see as the needs of the district facilities?
- ▶ What are a few wants you would like to see in the district facilities?

- 
- ✓ *Take a few minutes to think to your self and write down answers.*
 - ✓ *Then take time to share with you neighbor.*
